Projects

Apr 2018 - Jun 2018

Thuuz Sports
UX Researcher, UI Designer

- Redesigned an existing mobile app using user-centered design.
- Collaborated with team to conduct a competitive analysis, surveys, a cognitive walkthroughs, and usability tests.
- Discussed existing issues found through user research and addressed them by creating low/high fidelity prototypes.
- Chose final features and created a high-fidelity prototype using Adobe XD.

Apr 2018 - Jun 2018

OC Head Start
Business Analyst, Front-end developer, UI Designer

- Classroom assignment to create a working product for a sponsor in an agile environment.
- Collaborated with team to establish roles and communication means. Created and maintained the System Requirements Document (SRS).
- Met regularly with sponsors and team to elicit requirements and ensure our software reflected their clients' needs.
- Created personas and user stories based on gathered requirements and sponsor meetings.
- Added log-in functionality to high-fidelity prototypes using PHP and MySQL queries and used Bootstrap to create a polished document display on the working prototype.

Experience

Nov 2017 - Nov 2018

Cashier
Daiso California

- Handled cash and ensured customer satisfaction through friendly transactions.
- Collaborated with fellow cashiers and floor members to maintain the store clean and presentable.
- Took the initiative to find work when the store was not busy.
- Trained new cashiers and taught them how to properly close the store and document financial information.
- Supervised new cashiers during interactions with customers, and handling of money.

Mar 2016 - May 2016

Team Member
McDonald's

- Collaborated with fellow team members in a fast-paced environment to ensure customer satisfaction.
- Handled cash and ensured accurate transactions.
- Maintained store cleanliness by cleaning the dining and outside areas.
